Tom,

The Office has not responded to the current draft nomination. I do not know the policy for forwarding copies of draft before the office has responded to the applicant or scheduled it for hearing.

The last copy I sent was the one considered at the time of the Commission meeting.

Dwight

Dwight –

Thank you for providing a copy of the original nomination form for Gregory Mountain in June. We have received a data request from California Energy Commission staff regarding the Orange Grove Project Application for Certification as follows:

**BACKGROUND**

*Located approximately 2,400 feet from the project site on the south side of the San Luis Rey river is Chokla (Gregory Mountain), which has been identified by the Luiseño as a significant cultural property. Currently Gregory Mountain is being nominated to the National Register of Historic Places as a Traditional Cultural Property and is eligible for listing in the California Register of Historical Resources. The draft nomination was returned to the nomination preparer with comments from the review from the Keeper of the Register. These comments*

## Exhibit 47-1

*specifically ask the applicant to revise the resource count, the description of the resource, and the discussion of the integrity of Gregory Mountain. Staff needs to review the revised nomination form for this resource to assess potential impacts to it from the proposed project.*

**DATA REQUEST**

*41. Please provide the revised copy of the National Register of Historic Places nomination for Gregory Mountain.*

Could you please advise of the current status of the nomination and whether your office or others have revised the nomination? If your office has a revised nomination, could you please provide me a copy at your earliest convenience so that we may respond to the CEC data request. Thanks for your help.

Tom
